PROFIL

Full-Stack Software Engineer SAP Technical Support Lead with over 5 years' experience in the development and maintenance of modern web and enterprise solutions. Specialising in the MERN stack, Laravel and SAP environments (S/4HANA, ABAP). A proven track record in optimising processes, developing scalable applications and implementing DevOps methodologies. Committed, analytical and solution-oriented, with a strong focus on quality and innovation.

PROFESSIONAL EXPERIENCE

Software Engineer (Freelance)

Upwork

from November 2022 Remote

- Development of web solutions in e-learning, e-commerce and development platforms (MERN, Laravel, React).
- Management of the migration and deployment of CMS projects (WordPress, Laravel, Docker, CI/CD).
- Implementation of projects from the portfolio: online code editor, cash flow app, energy forecasting app, document management with OCR and AI.
- Technical communication and project coordination in English and German.

German Technical Support Lead (SAP & ABAP Environment)

DXC Technology

from April 2025 Tunisia

- Management of technical support (Levels 1–3) for German-speaking customers in the SAP environment (SAP GUI, SAP Business Client, S/4HANA).
- Analysing and resolving technical issues in SAP systems, including user management, RFC connections and authorisations.
- Support with the integration of SAP modules and troubleshooting of ABAP reports and function modules.
- Assisting with the adaptation and testing of ABAP programmes (data selection, table maintenance, debugging).
- Ensuring SLA compliance and improving service quality through structured documentation and process optimisation.
- Training for new support staff on how to use SAP ticketing systems and the basics of ABAP debugging.

Product Owner

HYL Elektrobau GMBH

September 2024 – February 2025 Remote

- Leading the development of a MERN stack application for energy forecasting using deep learning models.
- Defining requirements, prioritising features and coordinating between developers and stakeholders.
- Improving the accuracy of energy forecasts by 15% through continuous model optimisation.

SOFTSKILLS

Collaboration | Organization | Adaptability | Communication | Responsibility | Learning Potential | Problem Solving | Time Management

STRENGTHS

- SAP & ERP

S/4HANA | SAP GUI | ABAP | SAP Business Client | RFC | Access Management

- Frontend Development

React.js | Next.js | TypeScript | Tailwind CSS | Redux | Material UI

- Backend Development

PHP | Laravel | Node.js | Express.js | Adonis.js | REST API | GraphQL | WebSockets

- AI & Machine Learning

LLMs | Hugging Face | TensorFlow | Deep Learning | Prompt Engineering | Paperless AI | Google Vision API

- DevOps & Cloud

Docker | Kubernetes | AWS | CI/CD | n8n | Ubuntu | GitHub Actions | Linux

- Security & Integration

JWT | SMTP APIs | OAuth | Testing | SSL | DNS | Monitoring | Automation

- Best Practices

Clean Code | Documentation | Agile | Trello | Jira | Version Control

- Databases & Tools

MongoDB | MariaDB | MySQL | Oracle | Database Design | Data Cleaning | Postman | Stripe API

Full Stack Web Developer

Panosch Media

June 2023 – August 2024 Innsbruck
